LED Status Indicator

5V/9VDC USB Micro B
Power Socket

Operation:

Power:

1. Insert the USB power cable in a 5VDC/9VDC USB mains power adaptor (not included) or a suitable USB charging port such as a computer.
2. Insert the USB micro B plug in to the USB power socket of the LED clock.
3. The LED status indicator will turn on.

Note: It is suggested to use a Qualcomm® Quick Charge™ 3.0 USB mains adaptor for fast charging. Please check to see if your device supports quick charge otherwise it will charge at 5W.

Charging:

1. Place your Qi wireless enabled smart device in the centre of the charging pad.
2. The LED status indicator will be flashing white to indicate that the device is charging.

Note: This device doesn't support smart watches.

Clock Setting:

1. Press and hold the L button to enter the hour clock setting.
2. Press the L button to change the hours lower or press the R button to change the hour higher.
3. Once you have set the hour time, leave the device for 5 seconds and the information will be saved automatically.
4. Press and hold the R button to enter the minute clock setting.
5. Press the L button to change the minutes lower or press the R button to change the minutes higher.

6. Once you have set the minute time, leave the device for 5 seconds and the information will be saved automatically.

Note: The clock is set to 24 hour time by default; double click the L button to change to 12 hour time.

LED Status Indicator:

LED:	Description:
White On	Power Connected
White Flashing	Charging
White Off	Power Off
Red On	Unsupported Device

Troubleshooting:

Problem:	Solution:
Will not charge device	Ensure your smartphone supports Qi wireless charging
	Ensure the mobile device is placed directly in the centre of the charging pad
	Restart your mobile device and wireless charger
	Take off your phone case as it may be interfering with the wireless charger
Will not power on	Ensure the USB cable is connected properly to a suitable USB mains adaptor or charging port

Problem:	Solution:
Red LED is showing (Unsupported device)	This charger requires your device support Qi wireless charging
	This device doesn't support smart watches

Safety:

1. Do not place any metal objects, magnets, magnetic stripe cards or metal phone cases between the mobile device and the charger as it may not work properly.
2. Keep the wireless charger at least 20cm away from any implantable medical devices such as pacemakers or cochlear, etc. to avoid interference with the medical device.

3. Do not open the case of the LED clock to avoid damage and injury.
4. Keep the LED clock away from high temperatures as it may cause damage to the speaker and battery.
5. Do not expose the LED clock to water, moisture or liquids to prevent the unit from damage.
6. If using a third party mains power adaptor; make sure the voltage and current match the specifications as 5VDC or 9VDC.

Specifications:

Qi Standard: 1.2.4

Input: 5VDC @ 2A, 9VDC @ 1.67

Voltage Output: 5VDC, 9VDC

Current Output: 5V @ 1A (5W)

9V @ 0.8A (7.5W)

9V @ 1.1A (10W)

Output Power: 5W/7.5W/10W

Charging Efficiency: 73% (Max)

Charging Distance: ≤ 8 mm

Battery: 3.7V Li-Po, 150mA

(Clock Memory Backup)

Dimensions: 100(Dia) x 25(H)mm
