RESPONSE
Bluetooth Handsfree with FM Transmitter and 2.4A USB Charger
AR-3133
User Manual

Box Contents

- 1 x Bluetooth Handsfree
- 1 x Remote Control
- 1 x 3.5mm AUX cable

Using FM Transmitter function:

1. Plug the FM transmitter into your vehicle's cigarette lighter or power port.
2. Tune your radio to an unused FM frequency, then match the same frequency of this unit.
3. Insert a USB flash drive or SD card that contains MP3 files into the USB port or memory card slot of this unit accordingly. It will play and transmit the MP3 files automatically.
4. Line-in function: Use the provided audio cable to connect an MP3/M4 players or another external device to the AUX input of this unit. When using this function, please stop playback of USB or memory card, and all functions will be controlled by the external device.

Using Bluetooth function:

1. Using Bluetooth for the first time, you need to pair your mobile phone with this unit. Activate your mobile phone's bluetooth function, then search for the new device. When the mobile phone detects this unit (named as "BT167"), please pair and connect by using the original password "0000"
2. In the music playing mode, when there is an incoming call, this unit will automatically switch to telephone mode.

Note: The Bluetooth indicator light which is on the top of the screen will stop flashing after the Bluetooth connects with your mobile phone.

Bluetooth calling:

1. Please press the **Green "Answer/Hang up"** button in the middle of the keyboard to answer the incoming call.
2. Please press the **Green "Answer/Hang up"** button in the middle of the keyboard to end a call.
3. When making a call, you can only dial the phone number by your mobile phone, but once the call is connected, you can use the hands-free function to enjoy it.

Note: The Bluetooth indicator light which is on the top of the screen will flash quickly when talking.

Using the USB charger function:

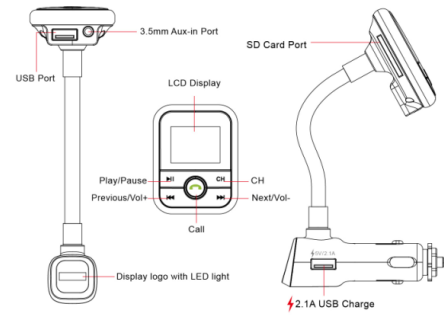

When this unit is powered from the car lighter socket, connect the USB Charger port to your mobile phone with a USB cable (not included).

This unit will serve as a mobile phone charger.

Remote controller:

Most of the functions can be fulfilled by the remote controller provided.
