PAIRING THE FIRST PHONE:

- Turn the device on by switching the On/Off button to 'On'.
- The device will enter pairing mode after a few seconds. You will hear 'Pairing' and the blue LED will flash quickly. If it doesn't enter pairing mode, press and hold the Multifunctional button until you hear 'Pairing' and the blue LED flashes quickly.
- Set your phone to be visible to all Bluetooth® devices, and search for devices. From your phone, select 'AR-3134' from the list to pair, type '0000' if prompted for a pairing password.
- Your phone is now paired to use with the device.
- The device will stay in a standby mode until it is activated by a call or music being played.
Note: The device will turn off after 10 minutes if left in pairing mode.

PAIRING THE SECOND PHONE:

- Ensure the device is on.
- Press and hold the Multifunctional button, the device will announce 'Pairing, phone disconnected'. This means that the device has entered pairing mode, and has disconnected from the first phone. The blue LED with flash quickly.
- Set the second phone to be visible to all Bluetooth® devices, and search for devices. From your second phone, select 'AR-3134' from the list to pair, type '0000' if prompted for a pairing password.
- Your second phone is now paired to use with the device.
- Reconnect the first phone by going to the paired devices list in the Bluetooth® settings, and selecting 'AR-3134'.

USING THE DEVICE:

Answering a call

The device will ring when there is a incoming call, please press the Multifunctional button '↷' on the Bluetooth® kit or the answer button on your mobile phone to answer the call.

Hanging up a call

Press the Multifunctional button '↷' on the Bluetooth® kit or the hang up button on your mobile phone to hang up the call.

Rejecting a call

Press and hold the Multifunctional button '↷' for 2 seconds.

Redial the number from the last call

Double press the Multifunctional button '↷' on the Bluetooth® kit while in standby mode.

Adjust volume

While in a call or playing music, press and hold the Volume Up ' + ' or Volume Down ' – ' to adjust the volume.

Transfer call to mobile phone

While in a call, double press the multifunctional button '↷' to transfer the call to your mobile phone. Double press the Multifunctional button '↷' again to transfer the call back to the Bluetooth® device.

PLAYING MUSIC:

- Select the song/album you want to play from your phone.
- Press the Multifunctional button '↷' or press play on your mobile phone to start playing the music.
- Press the Multifunctional button '↷' to pause the song. Press the Multifunctional button '↷' again to resume playing.
- While the music is playing, press the Next song button ' + ' to skip to the next song. Press the Previous song button ' – ' to skip to the previous song. These will only work when the song is part of a playlist or album in your phone.
- To adjust the volume, press and hold the Volume Up ' + ' or Volume Down ' – ' buttons respectively.

RECHARGING THE BATTERY:

- Plug the USB charger into the device and a power supply. Use the cigarette socket adapter to charge in a motor vehicle.
- The red LED indicator will be red while charging. Once charging is complete, the red LED indicator will be off.
- Please charge it to full capacity on the first charge. Full charging time will be around 3 hours.
- If the device has been left unused for a long time, the charging LED indicator will have a short delay of reaction when you charge the device.
- To prolong the life of the battery, it is advised to charge the device once it comes to a 'Low Battery' state. The unit will announce every 30 seconds when the battery is low. If it is frequently used in a 'Low Battery' state without charging, the battery life and its standby time will shorten, and the recharging time of the device will be extended to more than 3 hours.
- When the battery is too low, hands-free functions will not work.
