10.	DC Power Socket (Rear)	Connect 2.5mm DC power cable to the power socket on the rear of the unit and opposite USB end to a suitable USB power source

## Installation:

1. Align and connect the base stand with the tray attachment together as shown below:

2. Once connected; it should lock into place when aligned properly.

3. If you wish to use the folding stand instead of the base stand with tray; use the screwdriver to untighten the screw and nut located on the back of the unit.

4. Once the screw has been loosened; remove the screw, nut and base stand from the mirror.

5. Put the folding stand on the back of the mirror and align the holes along with the holes on the back of the mirror.

6. Place in the screw and nut together through both the mirror and folding stand; tighten again with the screwdriver while holding the nut tightly.

## **Operation:**

1. Remove the battery cover on the rear of the unit and insert 4 x AA alkaline batteries.

2. This mirror can be powered by batteries or permanently using the USB power cable. Insert the DC plug of the USB power cable to the rear of the mirror and the opposite USB end to a suitable USB power source.

3. Once the unit has power, press the power switch located on the rear of the unit to on.

4. Touch the on/off/dimming button once to turn the LED light on. Press again to turn the unit off.

5. Press and hold the on/off/dimming button to change the brightness from high to low brightness. To change the brightness from low to high; press and hold the on/off/dimming button again.

## **Safety:**

1. Do not open the case of the LED makeup mirror to avoid damage and injury.
2. Keep the LED makeup mirror away from high temperatures as it may cause damage to the unit.
3. Do not expose the LED makeup mirror to water or liquids to prevent the unit from damage.
4. If using a USB mains power adaptor; make sure the voltage matches the specifications as 5VDC.

## **Features:**

- . 1x, 2x, 3x Magnification
- . Touch Button
- . Dimmable
- . 180° Adjustable Tilt
- . USB & Battery Powered

# Specifications:

LEDs: 24

Magnification: 1x, 2x, 3x

Battery Life: Up to 3 Hours

Batteries: 4 x AA (Not Included)

Power: 5VDC, 500mA

Dimensions: Open 350(W) x 230(H)mm (Excluding Stand)

Closed 180(W) x 230(H)mm (Excluding Stand)
