

# Dummy Bullet Camera with Infrared LEDs

User Manual  
LA-5325

## Box Contents:

1 x Dummy Bullet Camera

1 x CCTV Security Sticker

1 x Mounting Hardware

## Product Diagram:

## Installation:

1. Slide the top cover off the camera and open the battery compartment.
2. Insert 2 x AA batteries into the battery compartment using the correct polarity indicated by the positive (+) and negative (-) markers.
3. After the batteries have been inserted; close the battery cover and slide the camera cover back on.
4. Position the camera in the location you want such as a wall or ceiling and mark the screw holes to match the camera.
5. Fix the camera in place by using the screws provided or wall plugs if you're drilling into surfaces such as brick or concrete.
6. Adjust the angle of the camera by loosening the angle adjustment knob and adjust to your required position. Once it has been adjusted, tighten it into place.

## Safety:

1. It is recommended to install the camera undercover to avoid long term exposure to rain and moisture.
2. Ensure only Alkaline batteries are used with the correctly polarity otherwise it may damage the cameras.
3. Don't modify or open the housing of the camera.
