

## IMPORTANT SAFETY INFORMATION

1. Before using, read user manual.
2. Do not charge and discharge the Power Pack at the same time.
3. Do not expose the Power bank to rain or moisture.
4. Disconnect from device when not in use.
5. Never use an extension cord or any attachment not recommended by manufacturer, otherwise this may result in a risk of fire, electric shock or injury to persons.
6. Do not operate the Power bank if it has been subjected to shock or damage.
7. Do not disassemble the Power bank. Incorrect reassemble may result in a risk of electric shock or fire.
8. Unplug the Power bank from any devices before attempting any maintenance of cleaning.
9. The appliance is not intended for used by young children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.
10. This Power Pack contains Lithium-ion battery inside, do not dispose the Power Pack into rubbish bin, contact your local council for disposal instructions.
11. When using Type C port to charge devices we recommend to use original Type C cable provided with the device.
12. The Power bank has dual USB A output ports, when user is simultaneously using both ports for charging the total power output will be capped to 15W.
13. To preserve lifespan recharge Power bank every 4 months.

Made in China

## PRODUCT FEATURES

- Ultra high capacity power bank.
- Charge latest tablets, smartphones, game consoles and more.
- USB-C will deliver up to 15W power to compatible devices.
- Dual USB-A outputs will charge compatible smartphones and tablets faster than standard 5W charging.
- High speed Micro USB and USB-C inputs will allow full recharge overnight with suitable power source.

## BOX CONTENTS

- 1 x 25,600mAh USB Portable Power Bank
- 1 x Micro USB to USB-A Cable
- 1 x Type C to USB-A Cable
- 1 x User Manual

## USB DEVICE CHARGING

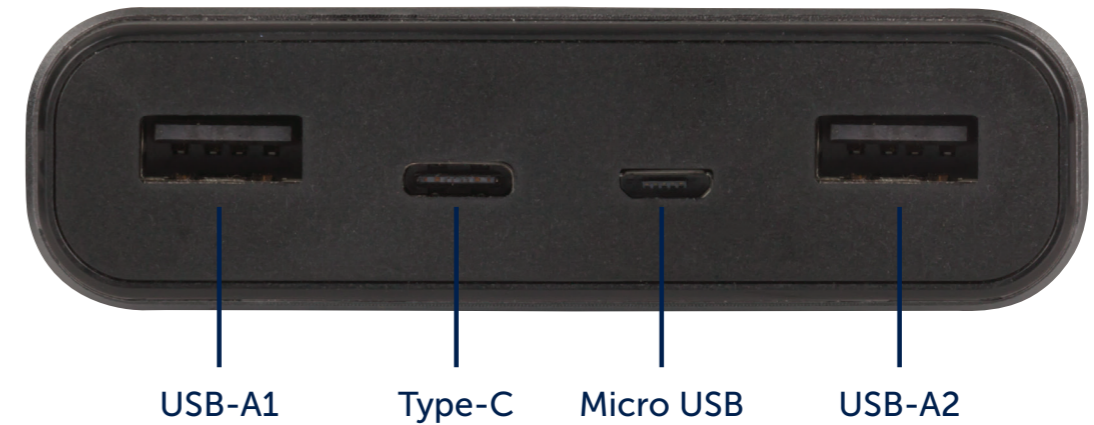

**Note:** The power bank has 8 LED indicators, each indicating 12.5% of battery capacity. While charging a device the number of LED indicators remaining illuminated solid would indicate the capacity of the power bank.  
e.g. if 6 LED indicators are solid would imply power bank has 75% of juice left.

1. The power bank has two USB-A ports and single Type-C port. Based on your device recommended charging instructions use appropriate port to charge. All three ports can be used simultaneously.
2. The device will begin charging with the LED indicator light illuminating, as stated above.

## POWER BANK CHARGING

**Note:** When charging the Power Bank, the number of LED indicators remaining solid would indicate the charge capacity.  
e.g. if 4 LED indicators are solid and 1 is blinking would imply the power bank has completed 50% charge and current capacity is between 51~62.5%.

1. The power bank has two input ports: Micro-USB and Type-C. Using appropriate charging cable connect to a power source like wall charger, car charger, computer etc. and the charging process will start.
2. The Mobile Power Bank will begin charging with the LED indicator light illuminating, as stated above.

## SPECIFICATIONS

Capacity:	25,600mAh
Battery type:	Li-ion
Input:	5V (Micro-B: 2A, Type-C: 3A)
Output:	5V (USB-A1: 2.4A, USB-A2:2.4A, Type-C: 3A)
Total Shared Output:	5V 3A max.
Charge Time:	13 hours
Dimensions:	177(L) x 81(W) x 23(H)mm
