POWERTECH

MS6106

Wi-Fi Smart Plug
User Manual

OVERVIEW:

- Works with Amazon Alexa, Echo Dot, Google Home & IFTTT.
- Manage your devices via your mobile phone or Voice Control.
- Intelligent Schedule - Smart socket can create multiple “schedules” to turn automatically on/off your electrical devices at different times.

FUNCTION KEYS AND INDICATORS:

- Short press the power button, indicator lights up meaning power is now on. (Indicator light off means power off).
- Press and hold the power button for about 5 seconds until indicator flashes quickly. This means the product has entered the network mode.
- If indicator flashes slowly it means there is a problem with your network connection. Please check the router or network configuration.

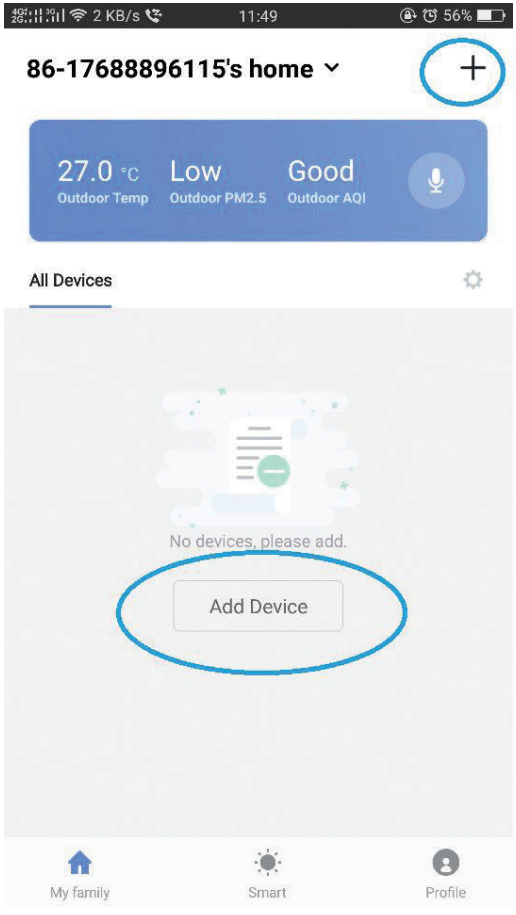
APP INSTALLATION:

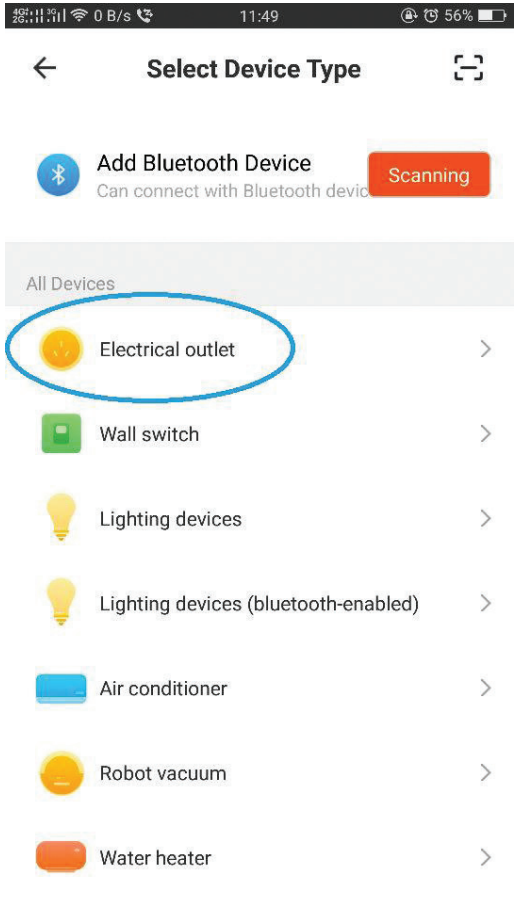
Use your phone to scan the QR code below or search “smart life+” to download and install the App.

Step 1: Follow the on-screen registration and login instructions for "Smart Life+" APP.

If you don't have a "Smart life+" APP account, register or sign in with mobile number or email + verification code.

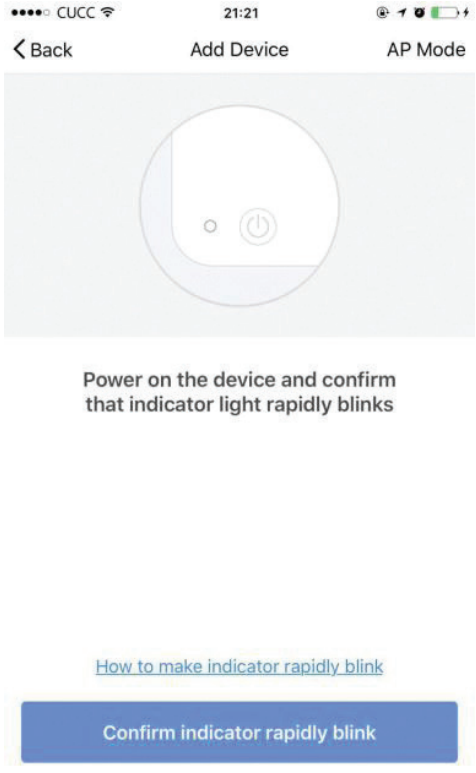
NB: Make sure your phone is connected to Wi-Fi in your home.
Click "+" in the upper right corner of the homepage, click "Add Device," then select "Electrical outlet" from the device type.

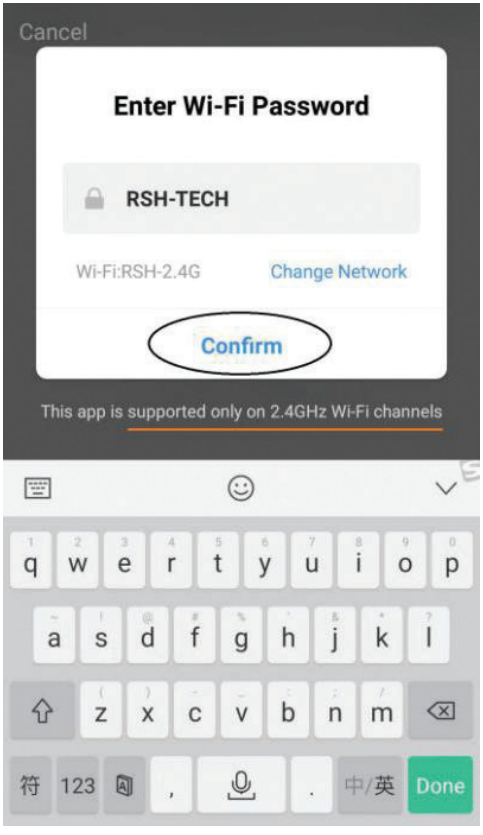


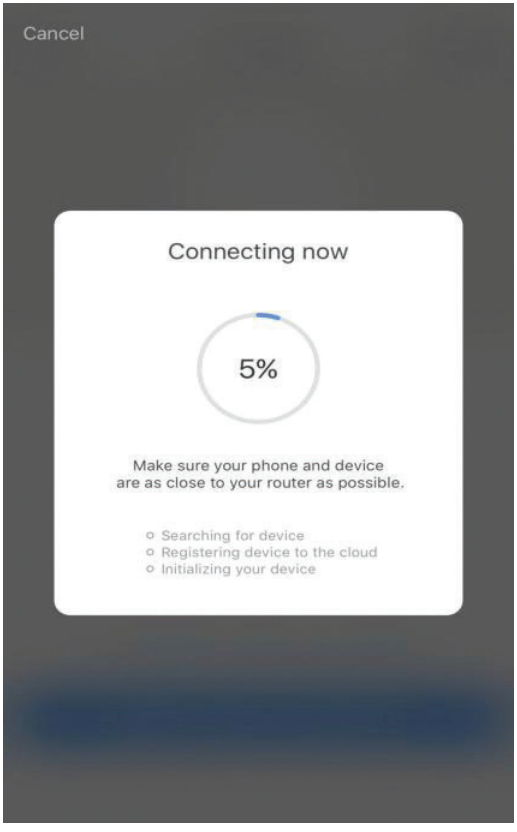


Step 2: Connect with AC Power, then press and hold power button more than 5 seconds until the indicator light enters into the fast flash mode.

Step 3: Enter your Wi-Fi password for your phone and click "Done" and "Confirm" to enter the page of the search device.

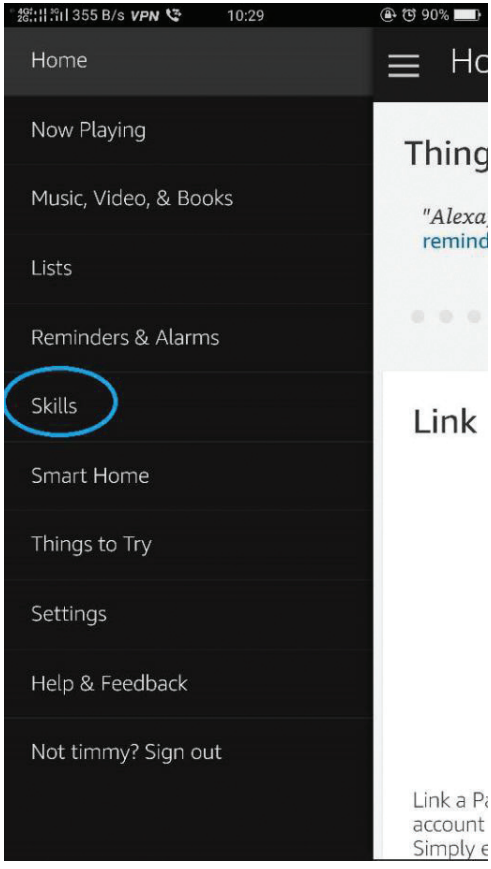


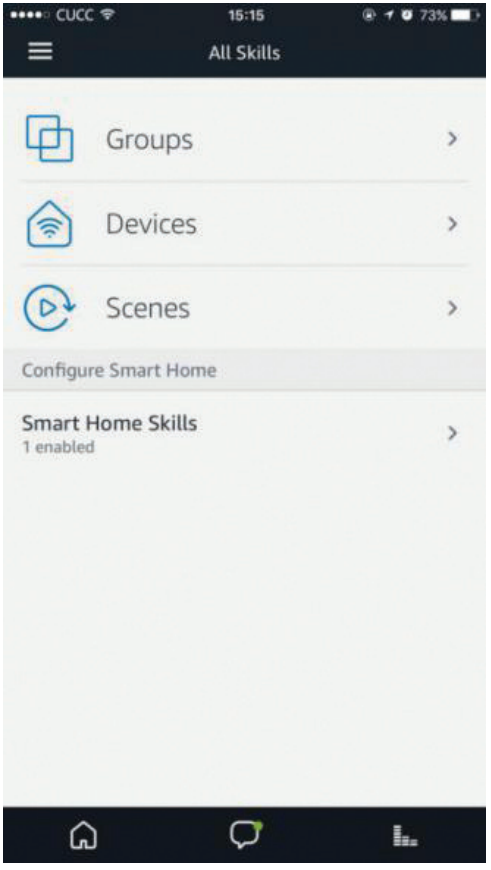


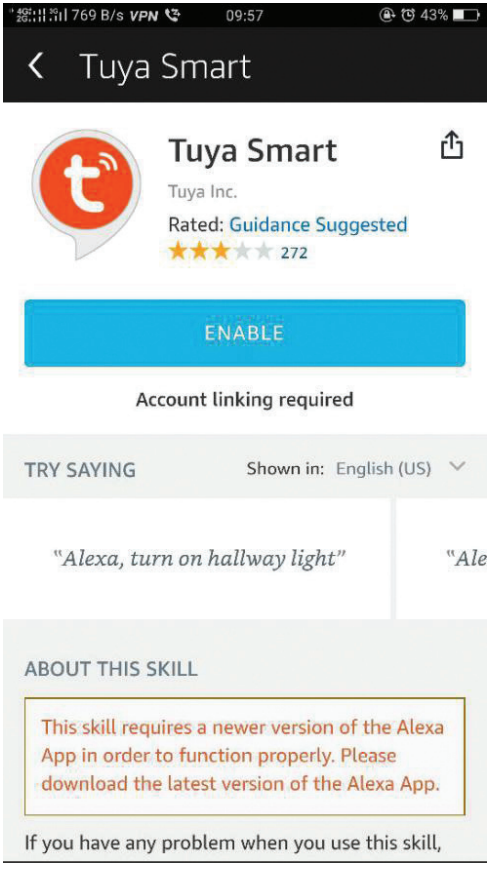


Step 4: Enter the device page, this completes the setup

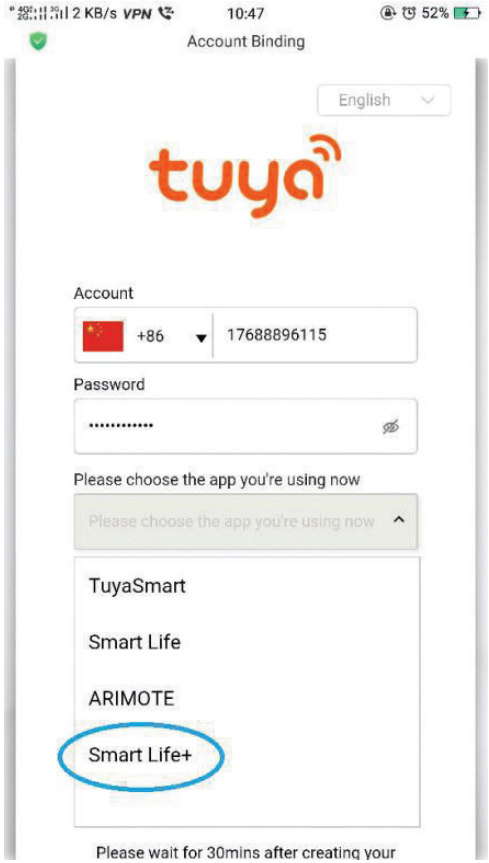
Step 1: Connect the Alexa speaker to the" Amazon Alexa" App. Then press the "Skills" button on the menu. Search "TuyaSmart" and choose the first one, then Enable it.

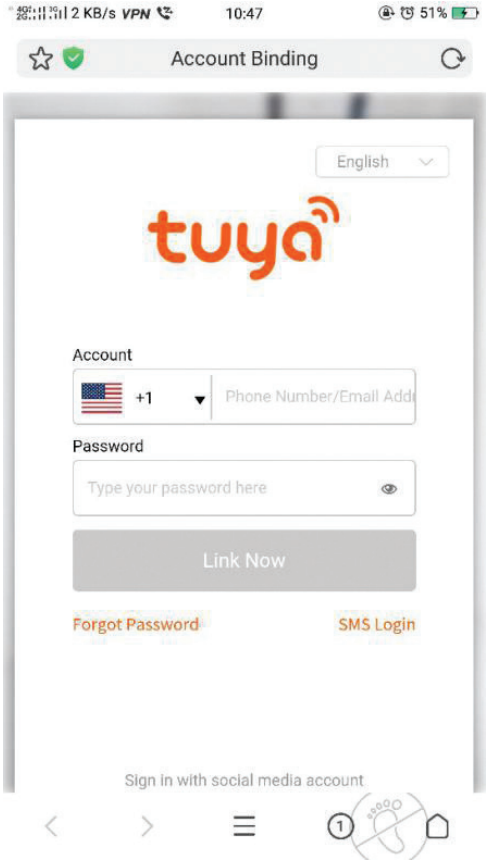


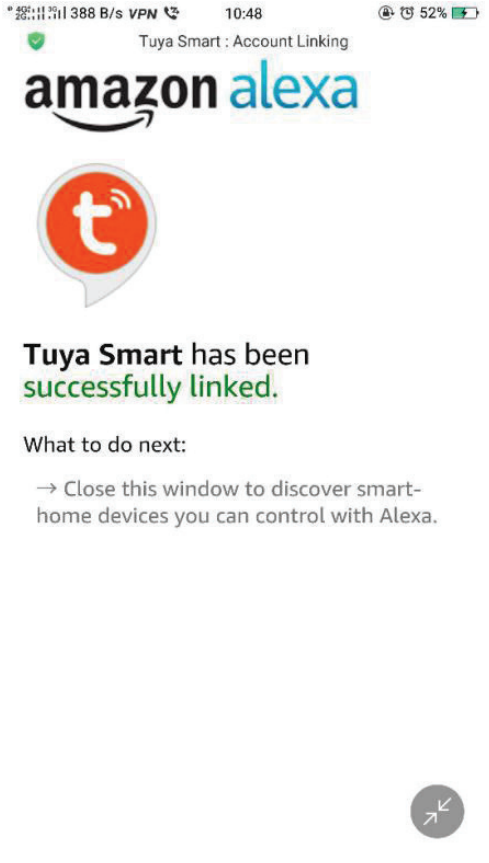




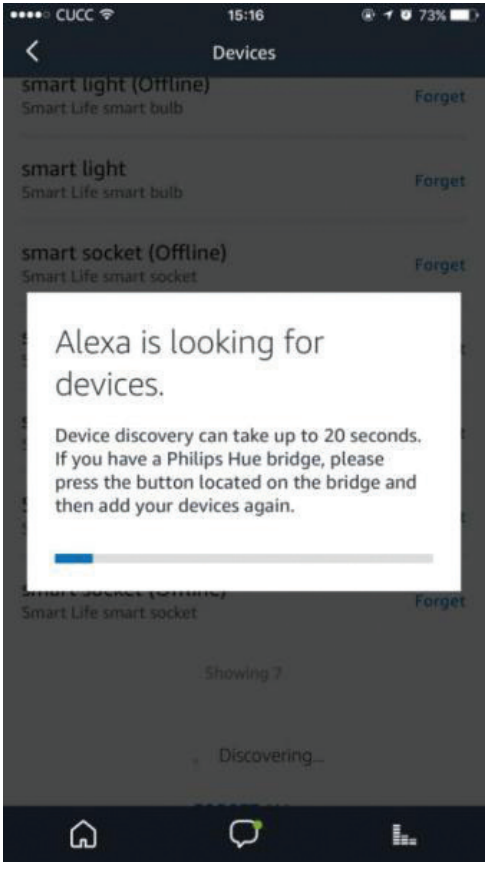
Step 2: Select your country code and Enter your "Smart life+" APP Account and Password, press the "Link Now" button; choose "Smart Life+ and press "Link Now" again. Then press "Authorize" button. If the link is successful, you should get the Amazon "Successfully Linked" screen:

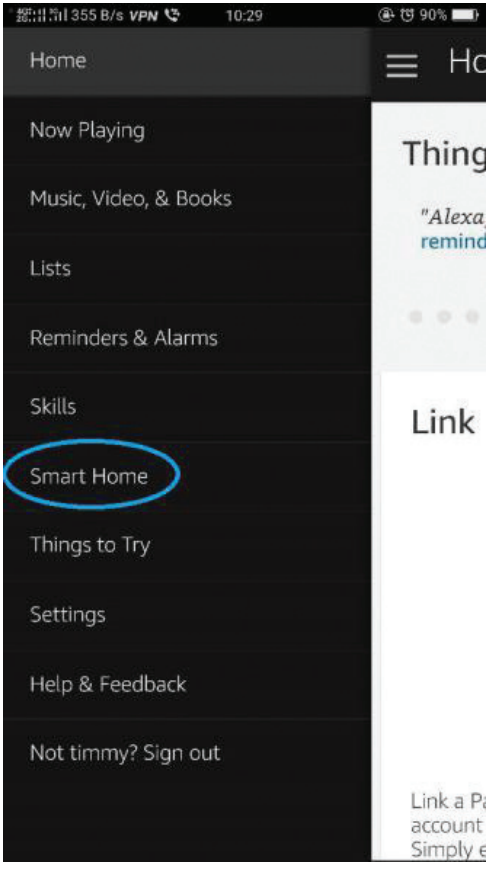


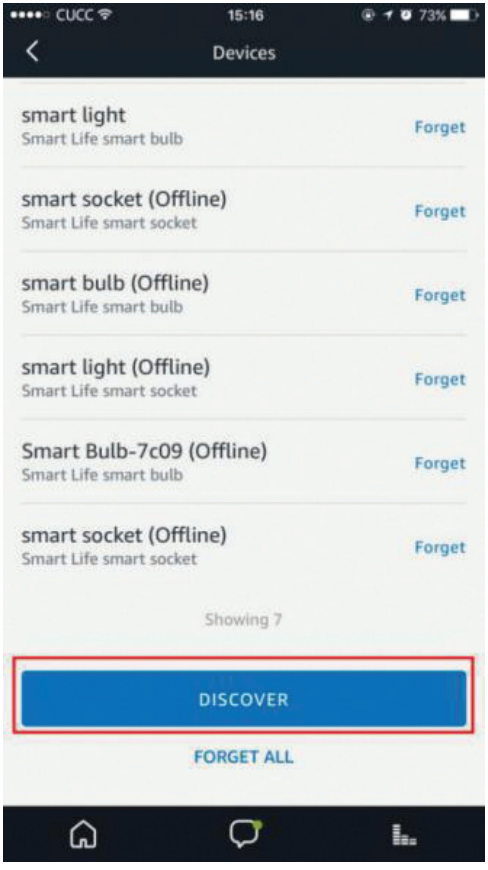




Step 3: Back to the menu, and press the "Smart home" button, then choose the "Devices", then press the" Discover" button.







Step 4: You can now use Alexa to control any smart devices on the "Devices" list.
