

## Box Contents:

1 x 1080p AHD Starlight Bullet Camera

1 x 18m Video & Power Cable

1 x Mains Power Adaptor

1 x Mounting Hardware

## Connection Diagram:

## Troubleshooting:

### Question: The picture will not display.

Answer: Check that the mains power adaptor and video cables have been connected properly to the camera, DVR and monitor.

### Question: Interference is showing on the display.

Answer: Make sure the monitor and peripheral equipment used is not making it interfere. Also it may be caused by the power supply ripples.

### Question: The colours continuously change.

Answer: This may be caused by an electromagnetic field or fluorescent lights. The camera may need to be distanced away from the lights to improve the quality of the image.

### Question: The image displays smear lines.

Answer: The power supply voltage could be unstable or check that the cables are connected properly.

## Safety:

1. Don't expose the camera to direct sunlight or bright objects as it may damage the lens.
2. To prevent electric shock, do not open the enclosure.
3. Avoid direct exposure to rain and water over long periods of time as it may limit the camera's lifespan.

## Specifications:

Camera Type: AHD

Image Sensor: 1/2.8" CMOS Sony® IMX291

Resolution: 1080p (1920 x 1080)

Megapixels: 2.0

Frame Rate: 25fps

Lens: 2.8-12mm

Lens Angle: 32°-104°

Infrared: 4 x IR Array LEDs

Infrared Range: Up to 40m

Min Illumination: 0.0001 Lux (IR On)

IP Rating: IP66

Power: 12VDC, 1A

Power Consumption: 80mA

Dimensions:

290(L) x 194(H) x 105(W)mm
