90°

Headlamp is adjustable to 90º by rotating the lamp head to the desired angle.

Change of batteries
The battery pack is mounted at the back of the lamp for even distribution of weight when wearing this lamp. For changing the batteries please open the rubber cap of the battery box. Always change all batteries at the same time. Insert new batteries according to the polarity markings in the battery case. Close the lamp by pushing the rubber cap back on the battery box.

Batteries
Never try to recharge batteries or use fresh and used batteries together. Always change all batteries at the same time and use high quality batteries and the same type only.
If you intend to not use this lamp for an extended time, take the batteries out to prevent battery leakage. Discharged batteries must be taken out.

Maintenance and cleaning
Clean this lamp with a dry soft clth

Attention!
When you reinsert the batteries into the battery pack, you must insert them according to the plus (+) and minus (-) marks inside the battery pack. If you insert batteries the wrong way, there may be the risk of damaged batteries or even an explosion!

Caution
Do not shine light directly into eyes, as this may cause damage to your eyes.
