DAC+ IR with Volumio

This setup presumes you have a fresh install of Volumio from www.volumio.com, and have set the DAC to I2S / HiFiBerry DAC+ in the first time setup.

SSH or plug the Pi into a monitor & keyboard and run the following commands in order.

```
sudo apt-get update

sudo apt-get install lirc

sudo nano /boot/config.txt
```

Add a new line at the end of the file

```
dtoverlay=gpio-ir,gpio_in_pin=26
```

Reboot your Pi

```
sudo nano /etc/lirc/hardware.conf
```

Edit the following lines to include the following

```
DRIVER="default"

DEVICE="/dev/lirc0"
```

Reboot your Pi

```
sudo irrecord -n -d /dev/lirc0 ~/lircd.conf
```

Follow the displayed instructions to configure your remote.
